

Fairy Floss Machine

QUICK OPERATING GUIDE

1 scoop =
1 serve

HOW TO MAKE FAIRY FLOSS

- 1 Place on a level surface.** — Set the machine down somewhere flat and stable.
- 2 Turn on power and run for 30 seconds.** — Adjust the machine if there is any vibration.
- 3 Turn on heat and warm up for 4–5 minutes.** — Wait for the head to come up to temperature.
- 4 Dump one scoop of sugar floss into the centre of the spinning head.** — Remove the scoop quickly.
- 5 Floss appears in about 10 seconds.** — Trace the inside wall of the dish with a bamboo stick, rotating it until you have enough. One full scoop makes one serve.

! SAFETY — READ BEFORE USE

- Adults only — never leave running unattended
- Keep fingers & loose clothing well away
- Steel spinning head is VERY HOT — do not touch
- Max run time 1 hour, then cool for 20 minutes

CLEANING — BEFORE YOU SWITCH OFF

- 1 Keep the head spinning.** Using the water container provided, pour a **small** amount of water into the head to rinse out the sugar.
- 2 Steam will be produced** — keep your face well back from the hot spinning head.
- 3 Turn off the machine** and wipe excess water from the steel dish.

⚠ If sugar is left to dry in the head, the machine will have to be disassembled — please don't skip this step!
